

REMARKS

By this Amendment, please cancel claims 1-25. New claims 26-54 are added without adding any new subject matter. Claim 1 calls for a method including transferring pixel data to a transformation engine at a given memory address range, performing a transformation on the pixel data, and readdressing the transformed pixel data to another memory address range without using a fetch engine.

In view of these remarks and amendments, the application is now in condition for allowance and the Examiner's prompt action in accordance therewith is respectfully requested.

Respectfully submitted,

Date: April 5, 2004
